Hybrid Fuel Cell Power Supply

YWP5000B

	Standard version	Options
Dimension (L x W x H)	1.65 x 0.9 x 1m	--
Weight	Total – 800 kg	
Battery¹		
Type	12V Deep Cycle AGM	--
Capacity	10.56kWh (4x220Ah)	--
24V DC/DC-converter		
Nominal output power	288W	--
Charger		
Fuel Cell	125W	--
PV panels	2 pcs. (660W ±10%)	--
Fuel²		
Methanol	2 pcs. (28L)	Up to 4 x 28L
Remote ON/OFF	✓	--
Remote monitoring	✓	--
Fire extinguisher	--	✓
Online overview		
Consumption	--	✓
Total charge power	✓	✓
Battery voltage	✓	--

¹ Battery packaged can be upgraded by 2 extra batteries to a total of 6 batteries.

² Extra methanol can be added with a Fuel Manager to 4 canisters.

“Compact power supply with Fuel Cell and PV panels. Up to 90W power consumption”

“Reliable power supply with online overview”
